GABRIELA GUGULSKA SIERANT

gabrielasierant@gmail.com 733 780 976 Kraków, Polska GitHub: https://github.com/SilverStorm2

Full-Stack Developer and Computer Science graduate specialising in Cybersecurity, with hands-on experience in JavaScript, TypeScript, React, Next.js, Node.js, Python, REST and GraphQL APIs, and databases. Experienced in contract-based software development and delivering commercial web applications through Blue Web Studio. Skilled in Linux server administration, Docker, Coolify and cloud deployments on Hetzner Cloud. Practical experience developing LLM-based and Retrieval-Augmented Generation (RAG) solutions, with a growing interest in AI agents, MLOps and DevOps.

EMPLOYMENT HISTORY

10.2025 – present
Contract Full-Stack Developer | Cooperate AS | Bergen, Norway

I develop and maintain web applications using JavaScript, TypeScript and React. I build responsive interfaces, integrate REST and GraphQL APIs, implement authentication and authorization, and contribute to debugging, testing, code refactoring and documentation. I collaborate with the development team using Git, pull requests and code reviews to deliver new features and maintain code quality.

Skills: JavaScript, TypeScript, React.js, React Hooks, Redux, HTML5, CSS3, REST APIs, GraphQL, Authentication and Authorization, ESLint, Webpack, Component-Based Architecture, Responsive UI Development, Functional Testing, Quality Assurance (QA), Code Refactoring, Performance Optimisation, Git, Pull Requests, Code Review, Technical Documentation, Agile Collaboration, System Integration, Automation, Engineering Design, Problem Solving, Troubleshooting, Process Improvement, Project Management, Research and Development.

07.2026 – present
Founder & Full-Stack Developer | Blue Web Studio | Cracow, Poland

I design and develop responsive websites and web applications for commercial clients, managing the full development lifecycle from requirements analysis and architecture planning to implementation, testing, optimisation, deployment and maintenance. I build solutions using React, Next.js, TypeScript and Tailwind CSS, integrate REST APIs and databases, and implement authentication and application security. I work directly with clients to translate business requirements into technical solutions, coordinate delivery, resolve technical issues and provide ongoing support.

Skills: Full-Stack Development, React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Node.js, REST APIs, Supabase, Authentication and Authorization, Client Requirements Analysis, Software Architecture Planning, Database Integration, Application Security, UI/UX Implementation, Responsive Web Design, Performance Optimisation, Testing, Client Communication, Project Delivery, Technical Support.

09.2026 – present
Server Administrator / DevOps | Blue Web Studio | Remote

I manage Linux-based cloud infrastructure hosted on Hetzner Cloud, supporting the deployment and maintenance of production web applications. My responsibilities include VPS administration, SSH access management, UFW firewall configuration, DNS, reverse proxy and SSL/TLS certificates. I deploy and manage Docker containers using Coolify, configure health checks, monitor server and application availability, and troubleshoot deployment and networking issues. I also maintain GitHub-based deployment workflows, focusing on infrastructure security, reliability and maintainability.

Skills: Linux Ubuntu, Hetzner Cloud, VPS Administration, Docker, Container Management, Coolify, SSH, Firewall Configuration, UFW, Network Security, DNS, Reverse Proxy, SSL/TLS, GitHub, CI/CD, Application Deployment, Health Checks, Server Monitoring, Troubleshooting, Infrastructure Security, Service Availability, Deployment Automation.

10.2025 – present
CyberSec IT Student Club Advisor | University of Business – National Louis University in Nowy Sącz | Nowy Sącz

As an advisor to the CyberSec IT Student Club, I support students in developing cybersecurity and technical skills, coordinate club activities, organise workshops and educational initiatives, and collaborate on technical projects. I promote hands-on learning, secure software development and knowledge sharing, and support practical cybersecurity exercises, project planning and technical problem-solving. I also help members structure their work, develop confidence with security tools and build practical experience through collaborative activities.

Skills: Cybersecurity, Information Security, Network Security, Linux Security, Wazuh, SIEM, Vulnerability Assessment, PKI, Secure Software Development, Web Application Security, Access Control, Data Protection, Security Testing, Threat Analysis, Incident Detection, Cybersecurity Workshops, Technical Mentoring, Project Coordination, Workshop Facilitation, Security Education, Knowledge Sharing, Problem Solving, Planning, Security Tools.

10.2025 – 04.2026
Junior Full-Stack Developer – Internship | ARTI Consult AS | 5004 Bergen | Norway

During my internship, I contributed to the development and maintenance of web applications, building responsive interfaces using HTML, CSS and JavaScript and integrating them with REST and GraphQL APIs. I worked on authentication and authorization, debugging, functional testing, code refactoring and performance optimisation. I used Git branches, pull requests and code reviews, prepared technical documentation and implemented new features based on project requirements.

Skills: Frontend–Backend Integration, Functional Testing, Code Refactoring, Performance Optimisation, Technical Documentation, Requirements-Based Development, Feature Implementation.

01.2026 – 01.2026
Speaker | Tukano Software House Sp. z o. o. | Nowy Sącz

I delivered a presentation at the Adepci IT 2026 conference, “Tomorrow Is Today,” sharing my journey into software development, experience with Full-Stack Development and practical applications of AI in a developer's daily workflow. The presentation focused on modern technologies, continuous learning and knowledge sharing, and was aimed at students and aspiring IT professionals. https://konferencja.adepci.it/

Skills: Public Speaking, Conference Speaking, Technical Presentations, AI in Software Development, Generative AI, Knowledge Sharing, Technology Education, Storytelling, Communication Skills, IT Community Engagement.

04.2021 – present
Pharmacy Technician | Remedium Pharmacy | Bochnia

I coordinate day-to-day operations and provide support to pharmacies within the network. I carry out formal and substantive prescription checks and verify compliance with applicable procedures. I work with pharmacy management systems and ensure the accuracy of entered data. I analyse the composition of compounded medicines and perform basic qualitative and quantitative analyses. I resolve day-to-day issues and cooperate with staff across multiple locations. The role requires independence, flexibility, strong organisational skills, effective prioritisation, and a high level of accuracy when working with data and documentation.

03.2009 – 02.2021
Senior Pharmacy Technician / Pharmacy Technician | Central Middlesex Hospital NHS, Northwick Park Hospital NHS, Golbourne Pharmacy. | London, United Kingdom

Lived and worked in London for nearly 12 years, gaining extensive experience in the UK healthcare system, including senior and specialist roles within the NHS. Coordinated hospital pharmacy operations, managed medication supplies and prescription processing, and prepared pharmaceutical products for clinical trials in accordance with GMP and SOPs. Maintained controlled drug records, collaborated with multidisciplinary healthcare teams and trained employees. Working in an English-speaking professional environment developed my fluent English communication skills**. Skills**: NHS Procedures, Pharmacy Operations, Clinical Trials, GMP, SOP Compliance, Medication Management, Quality Assurance, Staff Training, Multidisciplinary Collaboration, Fluent English.

11.2004 – 02.2009
Pharmacy Technician | Various Pharmacies, Poland | Bochnia / Krakow

Worked at Apteka Remedium II in Bochnia and Pharmacies at Kraszewskiego 13 in Bochnia and Osiedle Albertyńskie 22A in Kraków. Responsibilities included prescription processing, medication compounding, pharmaceutical calculations, inventory management, controlled drug documentation and regulatory compliance.

EDUCATION HISTORY

02.2023 – 07.2026
University of Business – National Louis University in Nowy Sącz | Cybersecurity | Bachelor of Engineering

Graduated with a Bachelor of Engineering degree in Cybersecurity, combining software development with secure web application design, network security, penetration testing and data protection. Developed practical skills in building modern web applications, identifying security vulnerabilities and applying cybersecurity principles throughout the software development lifecycle.

Skills: Cybersecurity, Web Development, Secure Software Development, Network Security, Penetration Testing, Data Protection, Web Application Security, Threat Modelling, Security Risk Assessment, Vulnerability Analysis, Software Development Lifecycle (SDLC), Security Architecture.

03.2022 – 06.2025
University of Business – National Louis University in Nowy Sącz | Public Administration | Bachelor’s degree

Graduated with a Bachelor's degree in Public Administration, gaining knowledge of administrative law, public finance and regulatory compliance. Developed analytical and organisational skills through legal analysis, documentation management and administrative coordination.

Skills: Public Administration, Administrative Law, Public Finance, Regulatory Compliance, Legal Analysis, Documentation Management, Administrative Coordination, Analytical Thinking, Problem Solving, Administrative Procedures, Policy Analysis, Legal Research, Public Sector Management, Decision-Making.

05.2011 – 05.2013
NPA NVQ3 Diploma Pharmacy Technician | Pharmacy | Vocational Diploma

Completed the NPA NVQ Level 3 Diploma in Pharmacy, gaining knowledge and practical skills in pharmaceutical services, dispensing medications, prescription processing, pharmaceutical calculations, stock management and patient safety. Developed strong attention to detail, accuracy, organisational skills and the ability to work in highly regulated healthcare environments while following professional standards and procedures.

Skills: Pharmacy Practice, Medication Dispensing, Pharmaceutical Calculations, Prescription Processing, Patient Safety, Stock Management, Healthcare Compliance, Quality Assurance, Attention to Detail.

09.2002 – 06.2004
Krakowska Szkoła Medyczna - ul Zamojskiego | Pharmacy technician | Vocational Diploma

Completed vocational education in pharmacy, gaining theoretical knowledge and practical skills in pharmacology, pharmaceutical calculations, medication preparation and dispensing, prescription processing and patient safety. Developed accuracy, attention to detail and an understanding of healthcare regulations and professional standards. **Skills:** Pharmacy Practice, Pharmacology, Pharmaceutical Calculations, Medication Dispensing, Prescription Processing, Patient Safety, Healthcare Compliance, Attention to Detail.

COURSES

06.2026
Bielik in RAG Architectures – From Model to System | Eskadra Bielika

Participated in a workshop exploring the integration of the Polish Bielik large language model into Retrieval-Augmented Generation (RAG) systems and AI-powered knowledge retrieval. Skills: Large Language Models (LLMs), Bielik LLM, Generative AI, Knowledge Retrieval.

01.2026 – 07.2026
SEKURAK ACADEMY 2026 – Cybersecurity Training Programme | Securitum

Completed a cybersecurity training programme covering OSINT, web server hardening, Active Directory enumeration, web application security, vulnerability assessment, threat modelling, incident response and AI security. Skills**:** Cybersecurity, OSINT, Web Server Hardening, Active Directory, Web Application Security, Vulnerability Assessment, Threat Modelling, Incident Response, Penetration Testing, AI Security.

02.2026 – 04.2026
OSINT 2.0 Toolkit Reloaded – Practical Open-Source Intelligence Tools and Techniques. | Securitum

Completed practical OSINT training covering people and company investigations, geolocation, social media intelligence, threat intelligence, APT analysis, disinformation, cryptocurrency tracking and darknet research. **Skills**: Open-Source Intelligence (OSINT), SOCMINT, Geolocation, Threat Intelligence, APT Analysis, Disinformation Analysis, Cryptocurrency Analysis, Digital Investigations.

04.2024
Practical Wazuh | Securitum

Completed practical training in Wazuh installation and configuration, SIEM, event collection, log analysis, threat detection, security rule creation and system monitoring. Skills: Wazuh, Security Information and Event Management (SIEM), Log Analysis, Threat Detection, Security Monitoring, Security Rule Configuration, Troubleshooting.
